

Simply Choose where you want your  
**Telstra Smart Community®**  
 services delivered.

NOW TELSTRA SMART COMMUNITY® AND SMART WIRING™ PRESENT YOU  
 WITH A UNIQUE OPPORTUNITY!

# 3 simple steps to your Smart Home!

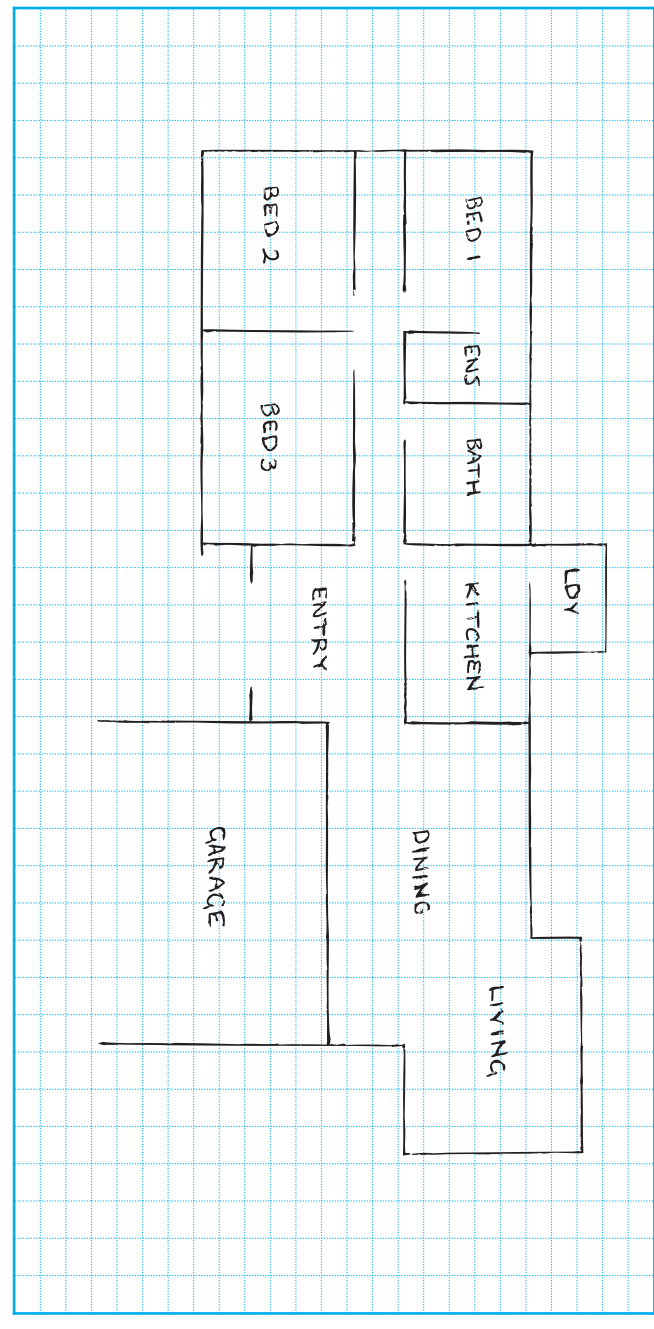

Everyone desires to live in a modern, connected, SMART home and community, with Telstra Smart Community® you have comfort, style and uncompromised telecommunication and entertainment technology delivered as you move into your new home.

your needs now and into the future, and can accommodate new technology as it is developed you need to Smart Wire your home now, as it is being built!

**Follow the 3 steps below to a Smart Wired™ home and give this to your builder before you start building your new home.**

## STEP 1 Draw your house floor plan

Sketch a layout of your home on the grid on the next page.

For more information on wiring systems visit: [www.smartwiredhouse.com.au](http://www.smartwiredhouse.com.au)  
 Or visit: [www.telstrasmartcommunity.com](http://www.telstrasmartcommunity.com) for more about the services offered.

Smart Wiring™ is supported by the following organisations

For more information about Telstra Smart Community® and Smart Wiring™ refer to [www.telstrasmartcommunity.com](http://www.telstrasmartcommunity.com) or [www.smartwiredhouse.com.au](http://www.smartwiredhouse.com.au).

Talk to your builder or log on to [www.smartwiredhouse.com.au](http://www.smartwiredhouse.com.au) to find your local Smart Wired™ contractor.

**Choosing the right Builder / Electrician**  
 To ensure that your new home is Smart Wired™ and that the wiring components provide you with access to the modern services of a Telstra Smart Community® you should always use an accredited Smart Wired™ electrician and a registered Smart Wired™ builder.

Smart Wiring™ is an industry backed wiring system used by Telstra to deliver digital telecommunications and TV services right throughout your home.

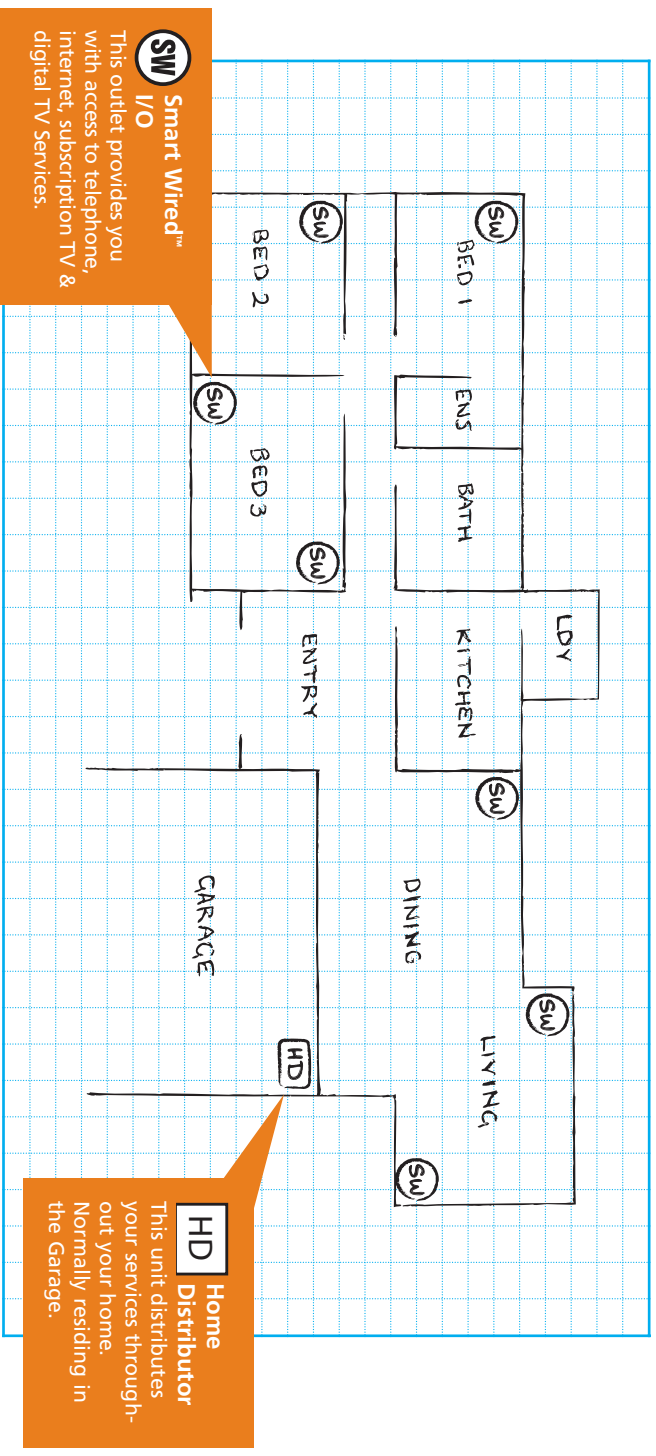

Telstra Smart Community® is providing a superior level of customer service and lifestyle benefits through modern communication and entertainment services including high speed internet, TV services, telephony and subscription TV for your home improving the way you live, work and play.

Telstra Smart Community®

For more information go to [www.telstrasmartcommunity.com](http://www.telstrasmartcommunity.com)

## STEP 2 Nominate your outlet points

Mark on your house sketch where you want your service points.

The convenience of the Smart Wired™ home is that all your services (telephone, internet, subscription TV and digital TV) are available from one Smart Wired™ outlet point.

Make sure that you consider all the places in your home where you would like a phone, TV or computer. This could mean that you have more than one Smart Wired™ outlet point in each room.

NB. Ensure power points are conveniently located next to each Smart Wired™ outlet.

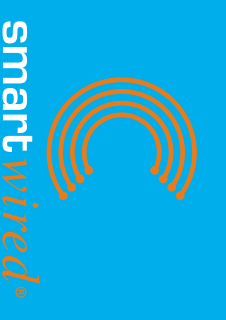

## STEP 3 Visit your Builder

When complete, hand this Smart Wiring™ layout to your Smart Wired™ Accredited Builder or Contractor.

Your builder will advise you on the most economical Smart Wiring™ package for your needs and property size. At this time you may also choose to wire your home for other Smart Wired™ House options such as:

- Audio cabling
- Security Wiring
- Home Automation

# Make your Telstra Smart Community<sup>®</sup> home a Smart Wired<sup>™</sup> home

Follow the 3 step guide below to plan your own Smart Wired<sup>™</sup> home.

## 3 simple steps to follow:

- 1** Use this grid to draw your house floor plan
- 2** Nominate where you would like your Smart Wired<sup>™</sup> outlet points. (remember: each Smart Wired<sup>™</sup> outlet point allows for Digital TV, Subscription TV, internet and telephone services)
- 3** Submit this plan to your Smart Wired<sup>™</sup> builder and discuss your Smart Wiring<sup>™</sup> needs.

## Optional Extras:

-  Main HiFi (Stereo)
-  Audio Speakers
-  Security Cameras
-  Garden Lighting
-  Garden Sprinklers
-  Home Theatre

Make sure you discuss these options with your builder.

A Telstra Smart Community<sup>®</sup> provides you with a gateway to the future, allowing you to easily explore the world without compromise, from inside the walls of your new home.

With a Telstra Smart Community<sup>®</sup> your home and community's telecommunications requirements have been considered, connected and completed. By Smart Wiring<sup>™</sup> your home you are also connecting your home to the future.
